

ImpelPro's Critical Tooling and Spares Checklist

A Complete Guide to the Tools and Spares Every Boater Needs

Every boater knows the importance of being prepared for unexpected challenges on the water. Having the right tools and critical spares on board not only saves time and money but can also be the key to ensuring a safe and enjoyable day on the water. This checklist provides you with all the essentials to keep your boat running smoothly and ready for anything.

Essential Tools

ImpelPro's Impeller Puller Tool

The must-have tool for quick and easy impeller replacement, even in cramped spaces.

Screwdrivers

A mix of Phillips and flathead screwdrivers in various sizes.

Adjustable Wrench

Versatile for different bolt and nut sizes.

Channel Lock Pliers

Ideal for gripping and turning larger fittings.

Needle Nose Pliers

For precise work in tight spaces.

Wire Cutters

To handle electrical repairs or trim wires cleanly.

Hammer

For general maintenance tasks.

Leatherman Multi-Tool

A compact solution for quick fixes on the go.

Wire Brush

To clean battery terminals and electrical connections.

Essential Tools

Composite Wrench and Sockets

Ensure you have the sizes commonly used on your boat.

Zip Ties

Handy for securing loose cables or temporary fixes.

Heat Torch or Lighter

Useful for heat-shrink connectors or emergency needs.

Duct Tape

The all-purpose fix for temporary repairs.

Critical Spares

Spare Impellers

Always carry the correct size for your water pump.

Bearings and Seals

Essential for smooth operation and preventing leaks.

Hoses

Bring spares for fuel lines, cooling systems, and bilge pumps.

Clamps

A variety of sizes to fit your boat's hoses and pumps.

Electrical Connectors and Heat-Shrink Tubing

For quick electrical repairs.

Valves

Replacement valves for your water pump or other systems.

Lubricants

Marine-grade grease and WD40 for maintenance and emergency fixes.

Fuel Filters

To keep your engine running smoothly in case of contamination.

Fuses

Assorted sizes to match your boat's fuse panel or inline setups.

Propeller Wrench and Spare Propeller

Critical for handling prop issues on the go.

Pro Tips for Managing Tools and Spares

- 1 Use Waterproof Storage**
Keep tools and spares in watertight containers to prevent rust.
- 2 Vacuum-Seal Metal Tools**
Protect tools from corrosion by vacuum-sealing them.
- 3 Regular Inspections**
Check your toolkit and spares before each trip to ensure everything is in good condition.
- 4 Tailor to Your Boat**
Customize your kit based on your boat's specific needs and systems.
- 5 Go Budget-Friendly**
Visit pawn shops for affordable, comprehensive toolboxes that you won't mind losing or replacing.

Why You Shouldn't Leave the Dock Without an ImpelPro Impeller Puller

Replacing an impeller is one of the most common maintenance tasks for boaters, yet it's often avoided because of the hassle. The ImpelPro impeller puller is designed to make the process fast, easy, and frustration-free. Don't let a failing impeller ruin your day—equip your toolbox with ImpelPro and be ready for anything.
